

***The Wave of New Technology
in Public Pool Cleaners***

A Dolphin for every pool

Patent Pending

www.maytronicsus.com

Patent Pending

Recommended for olympic and large commercial pools.

The professional, non-compromising answer for systematic, thorough and reliable pool cleaning for Olympic-sized and public pools. The most cost-effective machine on the market.

Scanning:

- Intelligent navigation system ensures complete coverage of every pool type and shape.

Brushing:

- Active brushing system with rotating brushes specially designed to brush, scrub and remove dirt from the pool floor, slopes, edges and corners.

Filtration:

- High filtration capacity and super suction power of 10,560 gal/h through two unique ultra fine porosity, easy-to-replace disposable filter bags.
Top user-friendly access to the filter bags.

MMI (Man Machine Interface):

- An interactive state-of-the-art MMI digital user-friendly control panel enabling full control of cycle time, operation delay, scanning system (navigation, logical), diagnosis of technical function and parameters.
Remote control for manual maneuvering.
Self entry and submerging into the pool.

Safety:

- Safety and reliability – overload-detection mechanism for protection, designed for long-lasting, safe operation with a low voltage of 38 volts.

Robustness:

- Robust, heavy-duty design to meet the tough demands of daily use in public pools.

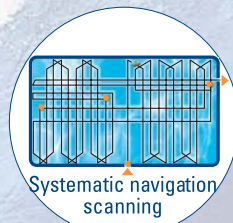

Warranty:

- Full 2-year "bumper-to-bumper" warranty.
User-friendly poolside maintenance.

Dolphin Wave Specifications:

Table with 2 columns: Specification and Value. Rows include Suction rate (10,560 gal/h), Suction width (27.5 in.), Cable length (131 ft.), Unit weight (55.1 lbs.), Unit dimensions (W 27.5 x L 22.8 x H 11.8 In.), and Main voltage (115 VAC 60 Hz).
