

pool perfect[™]

COMMERCIAL AF

**NATURAL
CHEMISTRY**[®]

Performance - GUARANTEED

03810 - 5Gal

PRODUCT FEATURES:

- 50% stronger than our original formula
- Specifically formulated for commercial and institutional pool water environments
- All natural, harmless and non irritating to people

BENEFITS:

- Broad spectrum enzyme formula powerfully biodegrades contaminants
- Reduces waterline ring, clogged filters, chloramines and chemical odors, eye irritation and cloudiness
- Positively affects ORP

Initial Start-Up:

In addition to the maintenance dose, add 1 ounce for every 1000 gallons all at once, every 7 days for the first 2 to 5 weeks, until the desired results are achieved. This additional amount is necessary to speed the removal of the pre-existing organic load.

Maintenance Dose:

Light to medium bather/organic load - 1 oz for every 3000 gallons per week

Heavy bather/organic load - 1 oz for every 2000 gallons per week (most common commercial pool dosage rate)

Very heavy bather/organic load - 1 oz for every 1000 gallons per week
