

The Pulsar® 1 System

Commercial Pool and Spa Chlorination System

With the Pulsarfi1 System chlorinator, remarkable water clarity, color and sparkle are as easy to achieve as they are to enjoy. The PulsarfiSystem eliminates the hazards of chlorine gas and liquid bleach, protects bathers, plaster and equipment and reduces chloramine odors dramatically. It's the only sanitation method that chlorinates, removes organics and metals, boosts hardness and shock treats . . . All in one simple process. Pool water that's balanced using the Pulsarfi1 System is cleaner and clearer with less hassle leading to longer pool and equipment life.

Simple, Dependable and Easy to Use

The Pulsarfi1 System's NSF certified chlorinator delivers consistently dependable water quality, even at very high chlorination rates. It can be used with a timer or any OPR-based pool automation unit. Easy to maintain, the Pulsarfi1 System chlorinator features a unique wave concept that is designed specifically for use on commercial pools/spas from 500 to 50,000 gallons.

Feeder Specifications

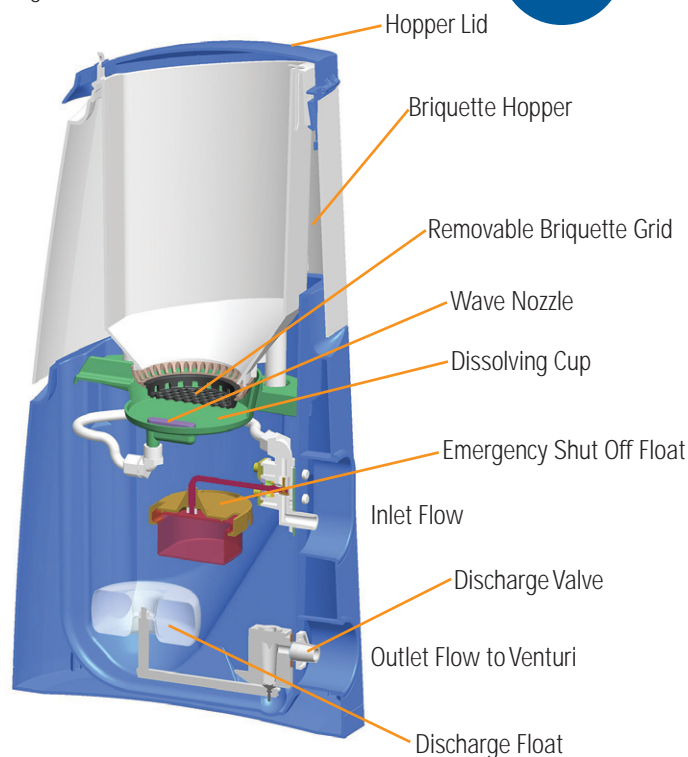

Diameter (max)	13% W x	34.3 cm
	15% D	39.4 cm
Height	31 in.	78.75 cm
Weight (empty)	17 lbs.	7.70 kg
Capacity* (weight of briquettes)	28 lbs.	12.7 kg
Feed-rate* range (AvCl/day)		
minimum	-0.5 lbs.	0.2 kg
maximum	-20.0 lbs.	9.0 kg

*Capacity and Feed Rate controlled by optional timer, or ORP controller only.

Pulsar® Plus Briquettes

Chemical Properties	Minimum	Maximum
Available chlorine (% by weight)	65.0	
Water (% by weight)	4.0	8.5
