

The Pulsar® 4 System

Commercial Pool and Spa Chlorination System

Specifically designed for large pools, the Pulsar® 4 System optimizes operation and minimizes maintenance. The remarkable difference in water clarity, color and sparkle is plain to see. Using the Pulsar® System eliminates the hazards of chlorine gas and liquid bleach, protects bathers, plaster and equipment and reduces chloramine odors dramatically. Easy to use and maintain, the Pulsar® 4 System chlorinates, removes organics and metals, boosts hardness and shock treats . . . All in one simple process. Pool water that's balanced using the Pulsar® 4 System is cleaner and clearer with less hassle – leading to longer pool and equipment life.

Simple, Dependable and Easy to Use

The NSF Certified Pulsar® 4 System chlorinator provides consistent and dependable performance, even at very high chlorination rates. Using a unique spray concept, the Pulsar® 4 chlorinator enhances your pool's filtration system to help make your pool water sparkle. It includes a constant washdown function; and has a ramped bottom with a well agitator to aid complete evacuation. A one horsepower booster pump provides suction through the venturi for optimal evacuation of the chlorinator. Easy access to the Pulsar® 4's internal components makes maintenance a breeze.

Dimensions	Feeder width	38 in.	96.5 cm
	Feeder depth	33 in.	84 cm
	Feeder height	39 in.	99 cm
	Feeder weight (empty)	74 lbs.	34 kg
	Tubing size (O.D.)	5/8 in.	19 mm

Capacity and Feed Rate	Capacity		
	(weight of briquettes)	200 lbs.	90.9 kg
	Feed-rate range	360 lbs.	163.6 kg
	(AvCl/day)		

Pulsar® Plus Briquettes

Chemical Properties	Minimum	Maximum
Available chlorine (% by weight)	65.0	–
Water (% by weight)	4.0	8.5
