

SUPERIOR

STARK™ BULKHEADS

PARTNER WITH THE LEADER

For over 70 years, S.R.Smith has created superior deck equipment for swimming pools. Adding to our full line of products is the most innovative fiberglass bulkhead on the market today, the Stark™ Bulkhead. Designed and manufactured by Stark™ for strength, beauty and ease of use this leading bulkhead will transform your pool into a multi-use facility for classes, sporting events, competitive meets and special events. S.R.Smith Commercial has the bulkhead and the competitive starting platforms to meet your facility's needs.

STARK™ BULKHEADS

PERFORMANCE

The 100% non-corrosive, solid fiberglass construction is the strongest in the industry and perfect for high-level competition. The all-in-one monolithic construction of the Stark Bulkhead was designed to give swimmers maximum return for high-impact flip turns — without openings or seams to trap athlete toes or fingers. Stark Bulkheads are proven performers.

DESIGN

Unlike stainless steel bulkheads, the Stark bulkhead has no wheels or tracks, does not require continuous buoyancy and offers a 100% Flow-Through cut-out design so there is no wave rebound and water levels are never disrupted. All Stark bulkheads are custom designed and manufactured to your pool specifications — from special sizes and timing devices to fitted starting platforms or matching team colors — your bulkhead will be precisely tailored to your facility's needs.

PROVEN

Stark Bulkheads have been installed in championship pools since 1965 and are the only bulkheads with a 25-year full structural warranty. Whether you are replacing an old, corroded metal bulkhead or need a custom design for your facility, S.R. Smith offers you the best bulkhead on the market today.
